## EXAM EXEMPTION FORM

### Examination Exemptions for Holders of Qualifying Certificates issued by Recognised Certification Bodies

#### **Definitions**

A 'Qualifying Certificate' is one that is issued by a Recognised Certification Body, and which demonstrates compliance with EN ISO 9712, covers the same Product or Industry Sector and NDT Method as the Certification sought, and the NDT level is relevant in terms of exemptions applied for.

A 'Recognised Certification Body' is one which is accredited by a body in membership of the International Accreditation Forum (IAF) / Pacific Accreditation Council against the requirements of ISO/IEC17024 to issue certification in compliance with the current editions of EN ISO9712. V2CL may develop individual agreements with certification bodies that do not conform to this definition.

#### **Exemptions allowed**

1. V2CL will grant exemptions for the written general and specific parts of Level1 and Level2 examinations for holders of valid Qualifying Certificates, providing the sectors match, if not general theory only will be granted.
2. A holder of a valid Qualifying Certificate may recertify directly within the scheme as if a certificate was held.
3. V2CL will grant exemptions for the Level3 basic examination Part A (Materials Technology) and C (general knowledge of four NDT methods at level2) and the Level3 main method examination part D (general knowledge of the NDT method) for holders of valid Qualifying Certificates.
4. Level 3 candidates who do not hold a level 2 EN ISO9712 certificate in the same sector and method, will be required to successfully complete the level2 practical exam
5. Candidate possessing a valid ASNT/ACCP Level 3 certificate will get exemptions for the Level 2 General paper if they appear for the Level 2 examinations alone.

#### **How to claim exemptions**

Those claiming such exemptions should apply in the first instance, using the format page 2, to the Certification Service Division through [icp@v2cl.com](mailto:icp@v2cl.com). Verification of current certification status will be taken up with the certification body which issued the certificate for which exemptions are claimed.

Following verification, the application form will be annotated and returned to the applicant together with a letter confirming exemptions for use in support of a standard examination application to the CB.

Please note that certification on which the exemptions were issued must be valid at the time of examination.
